cables with a smart meter

A Well-designed TOWNSHIP

Creating a Seamless Living Experience

In order to promote a safe pedestrian circulation system, special paving is used to demarcate raised crossings (150mm above road level) at road intersections. These crossings assist with reducing traffic speed and encouraging pedestrian/bicycle circulation. Special pavement patterning is located at intersections to highlight a change between the intersection streetscape and adjoining roads.

Community SPACES WITH EVERY BLOCK Where Social Life Blooms

Experience a harmonious ecosystem with thoughtfully designed community spaces in every block. Enjoy serene green sit-outs, amphitheater, artistic seating, and lush gardens for a vibrant community lifestyle.

1. Raised crossing
2. Streetscape planting
